

RAIDS ON ENGLAND

Planes Brought Down-- British Claim

CASUALTIES REPORTED

Of Bombs Jettisoned

Official reports received from London to-day say that bombers were brought down in air fights over England. Confirmation for this claim was not given to the Press.

Reports made, the German bombers appearing in the sky were attacked by Spitfires, and it is reported that damage was done, though there were some losses.

Official report it is stated that the British lost ten bombers. Of the total, six were brought down in air fights by anti-aircraft fire.

Reports issued by the British authorities in Cairo stated that during the previous twenty-four hours from the air were made on Italian objectives in the Somaliland.

FISHERY BOARD

Ennis Fish Pass

MUST BE ERCTED

Dr. V. S. Delaney presided at a meeting of Limerick Board of Fishery Conservators in Limerick to-day. The other members present were Messrs. W. J. Hayes, M. C. Burke, J. Cronin, G. F. Gleasure, R. Reid, J. MacAulay. Mr. J. Daly Secretary, was in attendance.

SYMPATHETIC REFERENCE.

Mr. Cronin proposed a vote of sympathy to Mr. George Roberts on the death of his brother, Dr. J. Roberts. Mr. MacAulay, in seconding, said that the popularity of deceased was evidenced by the great cortege at the funeral. Chairman, The late Dr. Roberts was a personal friend of mine for the last 40 years. We soldiered together as students and doctors. He was always one of nature's gentlemen and was one of the whitest men who ever came from Limerick. I wish to offer my personal sympathy to his wife and family.

AT OWNERS' EXPENSE.

The Secretary read a communication from the Department of Agriculture referring to correspondence relative to the fish pass in the dam at Ennis on the River Fergus and enclosing copy of a notice which the Minister had caused to be served on the occupiers of the dam, The Irish Whiting Manufacturers, Ltd., The Mills, Ennis, under sub-Section (1) of Section 30 of the Fisheries Act, 1939.

In the order forwarded, the Minister required the occupiers to execute to the dam's repairs which appeared to be necessary for the purpose of affording a free and uninterrupted passage to fish on the river, in accordance with plan and specification. The schedule included the partial removal of the existing fish pass in the dam and the construction of a new fish pass.

The Secretary said that the owners would have to erect the dam at their own expense. It was the first case of its kind which had arisen under the Act.

Chairman--It will be good for the fisheries.

The Secretary said that the work would have to be done within six months and the Act provided for a penalty for every day over the time.

POISONED TROUT COMPLAINT.

Limerick Fishery District Anglers' Association wrote complaining that trout in the Canogue river had been poisoned from Herbertstown Creamery downstream for about ten miles.

The Secretary said a letter was received from the Manager of Herbertstown Society stating that the complaints were exaggerated. Many live fish were seen at the point where the creamery effluent entered the river. The Society was anxious to assist in every way possible, but before going to unnecessary expense wished to know if the complaint was sure the fish were being poisoned by the creamery effluent.

The Secretary said that he had already been directed to write to the managers of both Hospital and Herbertstown Creameries. The manager of Hospital Creamery stated that they were prepared to do all in their power to avoid injury to trout in the river Mahone. They did not believe that creamery sewage poisoned the fish. About the 1st of June youngsters had constructed a weir on the river about 400 yards upstream from where the sewage entered, for the purpose of making a swimming pool. This action stopped the flow completely for some days, and this, the writer believed, caused the deaths of the fish.

Inspector Breen reported that he had not found any dead fish.

Mr. MacAulay said that there was no doubt that if creameries were discharging into the smaller rivers there would be mortality amongst fish if the arrangements suggested by the Board's engineer had not been carried out.

CREAMERIES COMPLY.

Secretary--They have certainly carried them out in the case of Hospital. In Herbertstown they did all that the Department's engineer asked them to do last year. Mr. Went, Department's engineer, said if that did not do they would have to take further measures.

Inspector Breen said that undoubtedly a small percentage of the fish died in every river when the water was low.

The Secretary said that when Inspector Breen went up there he found a dam to provide water for cattle.

Inspector Breen--The water was very low and they had to do something to collect water for their cattle.

The Chairman said he was sure the next time Inspector Breen visited the place there would be more water flowing and that the Anglers' Association would not have the same complaint.

Mr. MacAulay--I think it is a reasonable letter from the manager and he is prepared to do anything that is necessary for the proper discharge of the effluent from the creamery. Possibly there is something in what he says about the swimming pool.

Secretary--These creameries are very high and there is very little water. If anyone stopped the stream it would be dry for miles.

Mr. MacAulay--It was a good thing that the matter was raised and ventilated. You have awakened both creameries.

The Secretary said that when writing he drew the attention of the creameries to the provisions of the Fisheries Act, pointing out that if suitable steps were not taken the expenditure of more money might be necessary. He suggested that the Inspector should continue to supervise the places.

The Chairman said that the Secretary could write to the Anglers' Association pointing out that the trouble complained of was due to the stoppage by the dam.

LAI TO REST

Obsequies Of Canon O'Leary

TRIBUTES AT CORPORATION MEETING

A very large and representative congregation was present in St. John's Cathedral, Limerick, yesterday for the obsequies of the late Very Rev. Arthur Canon O'Leary, P.P., St. Patrick's.

CORPORATION TRIBUTES.

At the meeting of the Limerick Corporation last night, the Mayor (Ald. D. Bourke, T.D.) presiding.

Mr. P. F. Shanny referred to the death of Very Rev. Canon O'Leary, and said that the passing of this great Churchman had occasioned profound regret and sorrow. The late Canon was an untiring worker, and throughout his long life he laboured unceasingly for his flock. He was, too, a man of profound learning, and at all times his great knowledge was placed at the disposal of the people. His late parishioners mourned his loss very deeply, and he now proposed that an expression of the Council's sympathy be tendered to the Lord Bishop, and that the meeting adjourn as a mark of respect.

Ald. Reidy, T.D., seconded the proposition, and said that the death of Canon O'Leary had deprived the Church of a great priest, a priest who was beloved by the people and a priest whose memory would remain ever green for many years.

Mr. Hartney and Mr. Donnellan associated themselves with the vote, and paid high tributes to the late Canon for his work as a member of the Vocational Education Committee.

The Mayor, declaring the vote passed, said that it was only right and proper that the City Council should tender their sympathy to the Lord Bishop on the demise of a distinguished priest.

The City Manager, on behalf of the officers, joined in the expressions of sympathy, and said that the late Canon O'Leary was a priest who endeared himself to all sections of the community.

BOROUGH COUNCIL

Erection Of Air Raid Shelters

WHY WORKERS ARE NOT PAID

EDUCATION AND FOOD SUPPLY

QUESTIONS

The Mayor (Ald. D. Bourke, T.D.) presided at the meeting of the Limerick Corporation last night.

The other members present were--Ald. James Reidy, T.D.; Ald. J. McInerney, Councillors P. Bourke, M. Hartney, J. C. Hickey, P. F. Shanny, P. J. Donnellan, J. Dalton, J. M. Casey.

Mr. J. J. Berkery, City Manager; Mr. G. J. Keen, Assistant Town Clerk; and Mr. C. Stenson, B.E., City Surveyor, were the officials in attendance.

Ald. Reidy referred to the question of air raid shelters, and said that it was most unfair and unjust to have men engaged on this work without being in receipt of some compensation. Men engaged on similar work in Dublin and Cork were paid and it was nothing short of a scandal that Limerick workers were not being paid.

Mayor--I agree with you. These men should be paid.

Manager--I have no funds to pay these men and sanction was refused. At the last meeting the suggestion was made that the three Deputies should call on the Department.

Ald. Reidy--The money can be found for the payment of wages in Cork and Dublin and why not here?

Mayor--The Manager will take up this question with the Department and urge for sanction for the payment of wages to men employed on air raid shelters.

Manager--I will do that.

Replying to Mr. Hartney, the Manager said that it was his intention to have more air raid shelters built in the Prospect area.

EDUCATION OF THE POORER CHILDREN.

Mr. Bourke said that he desired to call attention to a question that was referred to from two pupils recently the education of the poorer children of the city. It was true that many children were unable to attend school because of the want of sufficient clothing and also because many of them were unable to procure books. It was very unfortunate that the system of education in Ireland was following slavishly the English system.

The Mayor said that he would be glad if he could help in any way, but the Department of Education were now providing books free for necessitous children. If anything more could be done he, with Deputy Reidy and Deputy Kevey, would be glad to interview the Minister.

Mr. Casey observed that a certain sum of money had been provided for the purchase of books, but the sum allocated to Limerick was altogether inadequate.

Ald. Reidy--The principle of supplying books free to the necessitous has been accepted, but the vote is not sufficient, but it might be reasonably expected that as time goes on the sum will be increased.

WORKING CLASSES AND FOOD STOCK.

Mr. Hartney said that at the last meeting the Manager made an impassioned appeal to the people to lay in three months stock of food. That was all very well for those who could afford to make big purchases, but the working classes could only purchase from week to week. He thought that the Manager, in his capacity as Commissioner, should appeal to employers to advance two months wages to employees in order to enable them to lay in food stocks. That was a very reasonable proposition.

Mr. Dalton said that the Minister for Supplies had declared that the stocks in the shops, if an emergency came, would be given for the poor.

Ald. Reidy said that the Minister had made it clear that stocks in stores would be given to the poor in certain eventualities.

OBVIOUS OBJECTIONS.

The Manager said that there were obvious objections to the course suggested by Mr. Hartney, but it might be possible for employers to have a quantity of essential food stuffs reserved in stores for their employees.

Mr. Hartney--That might meet the situation, but I do feel that some action should be taken to ensure that the working classes be able to command food supplies in the event of an emergency.

Mayor--The Manager will go into this matter and endeavour to meet Mr. Hartney's point of view.

The Manager said that it had been reported that he would give preference of employment on relief schemes to men who had given voluntary labour on air raid shelters. He had no power to do that, but special consideration would be given by him to such men.

KILLED IN U.S.A.

County Limerick Man's Death

VICTIM OF MOTOR ACCIDENT

A County Limerick man in Chicago, Mr. Michael Keough, who was born in Cappamore 75 years ago, was the victim of a fatal motor accident recently in the United States.

A Chicago newspaper gives the following account of the tragedy:

A retired west side policeman was killed and four other passengers were injured in an automobile accident on Ottawa, Ill., in La Salle County on Tuesday when the car in which they were riding skidded, skidded another car and crashed against a telephone pole.

Michael Keough, 75 years old, of St. La Vergne Ave., was killed, and injured were Lieut. James J. Donlan, the traffic detail; his wife, Mrs. Lou Donlan, 5077 Monroe Street; Donlan's sister-in-law, Mrs. Mary Donlan, 5555 Monroe Street; and William O'Malley, 5555 Monroe Street, also a retired policeman.

SERVED IN POLICE FORCE.

Mr. Keough was born in Limerick, Ireland, January 19th 1865. He joined the police department May 13th, 1893, and in 1905, and returned again in 1911. He served only eight months then resumed his service in 1921, and took pension January 1st, 1929. He served the Des Plaines, Woodlawn, Cott Grove, Alton (12 months) and Gr. Crossing stations during his years on force.

NATIVE OF CAPPAMORE.

It is with profound regret that I wish to announce the death, very suddenly, of Michael G. Keough, 213, So. Laver Avenue, Chicago, a native of Cappamore, County Limerick, Ireland. I know many friends and relatives of which he was a member in Limerick will be shocked by sad news of his untimely death, especially in Cappamore, where his memory is dear to all in that part of Limerick.

AN UPRIGHT AMERICAN CITIZEN.

Mr. Keough was an upright, outstanding American citizen, a good neighbor, true friend, always ready to assist in any action of advice, and his dollars always in evidence when required. He was a cheerful giver as well as a cheerful helper.

What a pleasing it was to meet him in his afternoon ramble, he looked so kind and kindly, a smile always beaming on his cheerful face, wit and humorous social conversation. He was out of his opinion on various subjects, cards were always face upwards on table. He never hid his ideas on current affairs behind a smoke screen, as deceptive politicians are prone to do.

Mr. Keough was very active in his walks of life in Chicago. Catholic, so Irish, benevolent and political and such society he had many friends. I should like to mention on account of his forwardness, but tricksters, count deceivers and traitors gave him a berth, as he was ready to expose their guilt. Oh how quick they would appear when they saw him coming.

FUNERAL ONE OF THE LARGEST OF ITS KIND.

His funeral from O'Keefe's modern home to Resurrection Church, one of the largest of its kind seen in part of the city for some time, a priest's sermon on his exemplary life very touching, as well it might be, for Keough was an upright man who up to his Church, his race, his native land, the great land of his adoption.

The pall bearers (most of them school mates in Cappamore) were J. Fitzgibbon, John Foley, Dennis O'Malley, Terry Madden, Michael Gleeson, Jeremiah Delaney.

Amongst the vast throng of mourners noticed some very prominent Limerick people, namely, Michael McNamara, Philip and Mrs. Doyle, Thomas R. Cappamore, Mr. James Cleary, E. Thomas Ryan, Tower Hill, and others all sorrowful looking, as they might be. We lost some excellent Limerick men in Chicago within the last years, amongst them Mr. M. O'Malley, Garnett Meade and now the but not the least, Michael G. Keough.

LEFT VOID IN HIS CIRCLE OF FRIENDS.

Interment was in Mount O'Malley Cemetery, where we hope and pray the free soil of his adopted country lay lightly on his mortal remains. He has left a void in his large circle of friends that cannot be filled except in gloom and sorrow. May he rest in peace.

GERMAN PLANE CRASH IN KERRY.

A German plane crashed yesterday evening at Faha mountain, near Cahane, Co. Kerry. The plane was in a wreck. The crew of six, two of whom were seriously injured and removed to hospital, have been interned. The plane crashed during a dense fog. The pilot and injured men into a collapsible rubber boat and brought them to Cahane Garda Station.

AFTER FORTY YEARS

Mr. N. J. Fitzelle who has been secretary of Wexford County Council also secretary of Wexford County Committee of Agriculture for the past 40 years has resigned the latter office. Fitzelle was a journalist in his days. He was arrested at one time by the British authorities and interned on Spike Island.

A STRANGE HOSPITAL

A strange hospital was reported to have been discovered in the mountains of the West of Ireland. It was said to be a place where the sick and the dying were taken to and where they were left to die in a most horrible manner. The hospital was said to be a place of great mystery and was said to be a place where the sick and the dying were taken to and where they were left to die in a most horrible manner.

ONLY TWO CASES

Only two cases were for hearing at Tarbert District Court, at which Mr. C. S. Kenny, B.L., D.J., adjudicated.

TARBERT DISTRICT COURT

Guard Philip, Tarbert, had Pergus Adams, Tullamore, summoned for having on his motor car at Tarbert on 22nd June only one front lamp.
