THE YANK AND THE BLACK-BERRIES.

I just heard a new Yankee story which sounds quite original,

He was born in America of Irish parents and came to visit the home of his ancestors. All his life he had lived in a big American city, piling up the dollars and had never seen the country. He was interested in everything he saw as he walked or drove along the country roads.

One day in July as he was strolling along, observant as usual, he saw a hedge of briars laden with fruit. Meeting a small boy on the road he said:

"Say, boy, what kind of fruit are their history was still to be

those "?

"Oh, they're blackberries," answered annals of epic achievemen the boy, surprised at his stupidity.

"Well, that's Irish anyway," laughed and that was the march of the the Yank. "Why those berries are red Brigade upon Kilrush. Whe and they can't be blackberries."

"But you see, sir." answered the boy stress of the campaign from promptly, "blackberries are always red racks into the large centre when they're green."

There was a grand total of 688 United States combatant naval vessels built, building and to be laid down in the next six months. For the next five years an average of one warship would be added to the United States Navy every five days, and the naval air strength would be increased by 15,000
