

CHRISTMAS GREETINGS

extend to our Command Staffs, Officers and men of the L.S.F. our best greetings in this season of Christmas.

We deeply appreciate the unselfishness of the members of this command in recent months prepared and equipped themselves to meet the threat of invasion, which has been recently the lot of many small countries.

We wish you and yours your share of peace and prosperity which is due to your country, and we hope you will be spared the horrible conflict of war, the specter of which you are so bravely fighting with tenacity and courage which is your proud inheritance.

On your behalf we thank the Garda Military authorities for the valuable assistance which they are giving us to the L.S.F. a highly trained efficient organisation.
