

Shocking Tragedy

Charleville Child Done To Death By Dogs

A shocking occurrence took place at Deerpark, a short distance outside the town of Charleville, on Monday evening, when a little child named Patricia Simms, aged two years, was attacked by three dogs—a Kerry blue, a greyhound and a terrier—in a field while playing with other children.

The dogs seemingly made a ferocious onslaught on the helpless victim who was badly mangled, her neck being broken and portion of her face eaten away. Superficial injuries were also found on other parts of her body. The child died later.

Rev Dr Brown, o.s., proceeded to the scene as well as a local doctor.
