A campaign to encourage the use by  
British housewives of greater quantities  
of home-produced foods, such as pota-  
toes, carrots and oatmeal, has been

have it tested again.  
Chairman—I think you should. Apart  
altogether from the question of cost, we  
should have an alternative supply in the

Chairman—I think we have done very  
well, having regard to the abnormal in-  
crease in the cost of commodities. The  
increased price of coal is a very big
