the present day he would long have forced the adoption and creation of a sound national or the establishment of a marine. Early in September Inter-Departmental Committee was formed to investigate the case for a national shipping service. It is at between this body and the made by Mr. Lemass there is connection. It is to be hoped, at that an early development will bring up of a merchant fleet that this country a much more place in the commercial world occupies at present.

OLD IDEA.

could be more fallacious than that the present war originated from comparatively recent events. Like the conflict of 1914-18, it has real roots in deep-seated evils of the past. It is always necessary to keep in mind in order to see in its perspective what is radically wrong with the world as we know it and the real remedy for the conditions which produce the crises of international politics such as that now going on can be found only until the fundamental wrongs which lie on which they are based are removed.

Ask Your Doctor*

One point on which all doctors and child welfare experts agree is to give your child unknown medicines, asking your doctor first. All mothers know this, but they buy it. Often the instinct to give pennies by buying "something good" overcomes their caution. So when your little one's stomach is sick and bilious, give Magnesia. Then you can be sure that you have the safest and best that money can buy. Prescribed by doctors and nurses, Milk of Magnesia is a preparation for a child. It acts on the stomach in a few minutes, cleans the blood and gently regulates the bowels. Nothing else can. Many mothers find Milk of Magnesia brand tablets handy. The mint flavour appeals to children, who take them easily.
