

BOBBY DODGERS'

—oo—

LADY CYCLISTS' TRICKS

Sharp comment was made by the Justice when a girl was summoned for giving a wrong name when caught without a light on her bicycle, at Ballyneety Court.

"I am told," said the Justice, "that men are now giving their names and addresses, but the women are excelling themselves."

He added that six summonses which had been issued in Patrickswell had been returned because of wrong names and addresses.

A sister of the defendant appeared in Court and the Justice told her: "If you did not appear I would have fined her £3. As it is I will let her off with £1."

"I think the time of giving false names and addresses is passed. There is too much of that going on. I don't think it can be done with impunity."

DEATH OF NUN

The death occurred at the Carmelite Monastery, New Ross, of Mother Anne of the Sacred Heart, aged 86 years. She was a native of County Limerick and a near relative of Rev. S. BIG BOOK STOCK.

The book stock at the City Library, despite the war, continues to grow. At the end of last month there were no fewer than 15,192 volumes available for circulation, as compared with 14,562 books on 31st August. This fact goes to show that the Librarian, Mr. Herbert, is losing no opportunity in making the department entrusted to his care a really live institution. It is to be noted—and with regret—that books of fiction are in popular demand when compared with other classes of literature. For October fiction accounted for 58.3 per cent. of the book issues and non-fiction only 24.2 per cent. Books of reference were relegated to a back seat, the demand representing only 2.3 per cent.
