

Herculean Work.

The late Father John Butler received his early education in Stonehall N.S., and in the Christian Brothers' School, Tipperary, after which he went to Thurles College to study for the priesthood, choosing San Francisco for his mission. There in the far Western States of America he did herculean work for the Church and for religion. Whether as a preacher of the Word or as an organiser, or as patron and builder of churches, presbyteries and schools, his work will stand the test of time, but his greatest achievement, apart from his winning souls for God, was the erection of the beautiful parish church which he dedicated to St. Agnes, and which will stand through the years as a glorious monument to his ability, undying zeal and missionary spirit. R.I.P.

High Mass in Lattin Church.

Requiem Office and High Mass were offered for the soul of this great priest in his native parish church, Lattin, and were attended by a large congregation of his relatives and friends. The clergy present were: Very Rev. Dr. Slattery, P.P., Lattin; Very Rev. J. Ryan, P.P., Fethard; Very Rev. Father Meany, P.P., Emly; Very Rev. Father O'Donnell, P.P., Knocklong; Very Rev. Father Sampson, P.P., Ballybricken; Rev. Father Cahill, C.C., Lattin; Rev. Father Kennedy, C.C., Knocklong; and Rev. Father Lynch, C.C., Ballybricken.

The immediate relatives present were: Messrs. Thomas, James and Michael Butler (brothers), Mrs. Fitzsimon (sister), Mrs. Butler, Wicklow (sister-in-law); Mr. Wm. Fitzsimon (brother-in-law); James Fitzsimon and Michael Butler (nephews), and Mrs. Henebry and Misses B. and M. Fitzsimon (nieces).

ACID STOMACH WIND, PAIN AND NAUSEA INSTANTLY RELIEVED

It is a remarkable fact that the entire medical profession regards 'Milk of Magnesia' as the ideal remedy for acid stomach. Doctors now that 'Milk of Magnesia' is the antacid most acceptable and beneficial to the system and its alkalizing effect is instantaneous. Acidity, wind, heartburn, nausea and indigestion vanish in a marvellous manner on taking 'Milk of Magnesia.' The stomach is soothed and strengthened and digestion is able to proceed in comfort. That sick, sour feeling and headache, caused by too much food, drink, or smoke—'Milk of Magnesia' dispels like magic. Get 'Milk of Magnesia'

tween the two statements. Mr. Fahey's other comments have really no relevance to the main contention in what we wrote. They purport to answer points we did not make at all and, therefore, we are not concerned with them. (Ed., L.L.)

CHARLEVILLE NOTES

(From) Our Correspondent.

Obituary.

The death, which took place last week at her residence, Ballyhea, Charleville, of Mrs. Mary Josephine Madigan evoked feelings of poignant regret over a wide area. The deceased, a young woman in the prime of life, was the wife of Mr. James Madigan, a well-known and highly respectable member of the farming community, to whom the sympathy of the public is extended in his tragic bereavement. His cross is hard to bear, as five young children, whose ages range from three weeks to nine years, are deprived of the tenderly care of a loving and devoted mother.

* * *

Obsequies.

There was a very large attendance at the obsequies of the deceased lady, which took place at the local cemetery. The funeral cortege was representative of all classes, and a striking manifestation of the sorrow which the sad event has occasioned in town and parish.

District Schools League.

The final of the District Schools League tournament, between Rathluirc Christian Brothers Schools and Newtown National School, was played at Newtownshandrum on Sunday last. Although ground conditions militated against a first class display of the hurling code, still those youthful exponents of the game gave a very fine exhibition. In the opening exchanges Rathluirc had a goal registered by Troy to close the scoring of the first half.

Second Half.

Rathluirc went further ahead early in the second half when majors were scored by Troy and O'Toole. The Newtown boys became aggressive and indications pointed to a close and exciting finish, but their efforts faded out when they reduced arrears by a goal, and Rathluirc again assuming command shot in another goal in the closing stages of a well contested game.

nor's gate the horse stopped seemed to be suffering from a sore.

Mrs. Dwane, wife of the defendant, said that she had driven the horse in February and found it difficult.

Michael Casey, Charleville, said that he had put laths on the horse. The laths were 16 feet in length and did not project beyond the shaft in front. He had tied them securely with light rope.

In reply to Mr. Roche the defendant agreed that if the laths were loose they would bang together and possibly frighten the horse.

In giving his decision, the Judge said that he had heard the evidence very fully and, at the conclusion of the plaintiff's case he had no doubt at all in his mind as to who was at fault. The evidence had been adduced before him on behalf of the defendant and such a character as not to support his first opinion. There had been the slightest bit of evidence to show that the plaintiff was in any way negligent. When the horse was taken out that day no steps were taken to get the sore on her breast cured. He believed that when the horse reached Mr. O'Connor's stable and turned in there either because of the pain in her breast or because she was frightened by the flapping of the laths which had become loose.

The Judge held on the facts that the defendant was guilty of negligence in allowing the horse to go on a sore breast to go on a long journey, and he was negligent as a driver in the way the cart was laden with the laths.

The plaintiff had suffered very much and he would give her a damages of £125; allow 8 guineas to the defendant for the bicycle, and £14 10s. for the special damages for loss of her horse, £172 18s. in all.

Charleville, discharged the defendant as referee in his usual style.

Cup Presented.

The cup put up in the competition was subsequently presented to the Rev. Father Rea, P.P., Charleville, who congratulated the winners on their success and commended the losing team for their display.

Pig Market.

Sixty-five bacon pigs were purchased at the fortnightly market, the prices being 112/- per cwt. d.w., and 83/- per cwt. l.w., advanced in quotation and from 50/- to 70/- each, by the baconers, very much purchased by Messrs. Dennys.
