
Gruesome Find in County Limerick

The body of an unnamed infant was discovered on the roadside at Carass-Croom, and was removed to the County Hospital, where an inquest was opened and adjourned.

Supt. J J Cooney, Adare, applying for the adjournment, after medical evidence had been given, stated that the facts of the case were being brought to the notice of the Attorney-General with a view to proceedings against the mother of the infant, who was as yet confined to hospital.
