Rehearsals will commence shortly, and for the first time in many years Limerick will have the opportunity of seeing and hearing its own orchestra perform. The orchestra will be of full symphonic proportions (in strings, wood wind, brass and percussion), numbering in all about 50 of the most talented musicians in the city. It will also act as accompaniment to the choral and concerted operatic numbers which are to be performed—"Tales from the Vienna Woods" (Strauss), the famous, "Quartette" from Rigoletto" (Verdi), the "Grand March from Tannhauser" (Wagner), etc., etc. The whole ensemble promises to be truly magnificent, and an event in the musical life of our city.
