

the accused, having considered all the evidence, it is your duty to bring in a verdict of guilty accordingly."

His Lordship then went on to deal with the evidence in detail, and, having done so, the jury retired.

THE VERDICT

The jury, after an absence of two hours, returned to court with a verdict that Margaret O'Connor was guilty of being an accessory before the fact of larceny on 17th October. She was also found guilty of receiving stolen goods.

Both accused (Mrs. O'Connor and Wilson) were found guilty of conspiracy of stealing on 2nd November.

Wilson was found guilty of aiding and abetting Kelly of stealing on 2nd November.

Mrs. O'Connor was found guilty of being an accessory before the fact on 2nd November.

Mr. Kenny, on behalf of Wilson, applied for a certificate for leave to appeal on the grounds (1) that his Lordship was wrong in law in not directing the Jury that Kelly's evidence was not evidence against Wilson.

(2) That his Lordship was wrong in law in not warning the jury as to the danger of convicting Wilson on the uncorroborated evidence of Kelly, said evidence being evidence of an alleged accomplice.

His Lordship said that he would give a certificate to appeal on the second ground.

Mr. Moriarty asked for a certificate for leave to appeal in the case of Mrs. O'Connor on the ground that the conviction of his client by the jury was against the weight of evidence.

His Lordship said that he would refuse this application but Mr. Moriarty could bring an appeal against his refusal.

The three accused were then put back for sentence until 10.30 tomorrow morning.

The discovery of the body of an unknown male infant in the Groody river on the Dublin road on Wednesday afternoon has led to an investigation by the Garda authorities in Limerick.

Following the report of the finding of the body to John Street Garda Station, Sergeant M. Farren had it removed to the County Infirmary.

Inquest proceedings were opened yesterday by Dr. J. P. Cleary, County Coroner, when medical evidence was tendered by Dr. B. Crawford, house surgeon, County Infirmary, and Dr. A. McMahon, house surgeon, St. John's Hospital.

The evidence disclosed that the body was in an advanced stage of putrefaction, and that it had apparently been in the water for a period of from two to three months.

The inquest was adjourned for the production of further evidence relating to the cause of death, and it is understood that the services of Dr. J. McGrath, State Pathologist, will be called on.
