LOUGHILL MAN'S DEATH.

The death occurred recently of Mr. Edmond Sheahan, Kiltteery, Loughill, a member of a well-known West Limerick family. He was father of Mr. James ("Sonny") Sheahan, the prominent Loughill and county footballer, and an uncle of Mr. Thomas Naughton, Deelish, Foynes, who has also represented his county in the football code. The late Mr. Sheahan was a brother of Mrs. M. A. O'Shaughnessy, Loughill, and of Mrs. D. Naughton, Deelish. There was a large and representative attendance at the funeral, which took place to Loughill Cemetery.

curer should be considered when the price of butter was being fixed. Mr. O'Connell said that the 4d. per lb. increase in the price of butter should never have been imposed on the poor and working classes. The extra cost should have been met by Government subsidy and the price should never have been increased beyond 2/-.

The motion was unanimously adopted.

On the proposition of Mr. Fitzsimons, seconded by Mr. Mitchell, a resolution was passed asking that a flat rate be fixed for cost of delivery of beet to beet factories.

Sympathy was extended to Mr. P. J. Meghen, B.E., Co. Manager, on his recent bereavement, on the proposition of the Chairman.

FELL FROM CART

LIMERICK FARMER'S DEATH

Mr. J. S. McNeice, solr., Deputy Coroner, with a jury, held an inquest at the County Infirmary, Limerick, yesterday evening, into the circumstances of the death of Michael McMahon (44), farmer, married, Clonmackin, Caherdavin, who succumbed to injuries sustained when he fell from a cart at Lower Gerald Griffin Street, yesterday morning.

Supt. P. Collieran, B.A., appeared for the State.

Frances Cunneen 6 Hannan Row, Lower Gerald Griffin Street, said that when passing the City Tannery yesterday morning she saw a horse and cart approaching. The driver was sitting on the right hand side of the cart. She then saw the cart pulling up and the driver fell off. There was nobody else in the cart at the time.

John McMahon, brother of the deceased, gave evidence of identification, and said that when he saw his brother at 11.15 a.m. he was in perfect health. About five minutes later he heard of the accident, and when he saw deceased he was then unconscious.

Dr. B. O'Brien said that when he performed a post mortem examination on the body he found a cut about one inch long at the back of the head; the cut was fairly deep. He had a fracture of the base of the skull, a fracture of the ridge between the front and middle fossae and a dislocation of the eleventh dorsal vertebrae. The injuries would be consistent with a fall from a cart. Death was due to fracture of the base of the skull and dislocation of the eleventh dorsal vertebrae.

The jury brought in a verdict in accordance with the medical evidence.

Nothing can be done, therefore, than to have more intensive work done ever on a scale which will decide the issue another before it is very far advanced. The work may still be very much out, but a balance of probabilities would suggest that it will be worth the next Festival around. Such, the hope of all who desire peace and sanitation to take the place of that is tearing bits.

The end of action, however, will be immediate establishment of a settled condition. It will take a long time to evolve a settlement out of the present and destruction of years of the most cruel and ruinous history. How can the country stand the future world on international and principles of war so much? This is a question for us to ask that nobody can answer or authoritative now. The new world needs clear thinking and careful handling if it is to be avoided and the possibility of any opportunity to arise for safeguarding interests and advancing the welfare of our people.
