

Boy's Sad Death

Electrocuted On Way Home From School

A shocking tragedy occurred in Kilmallock yesterday afternoon when a schoolboy aged 12 years named Patrick Barrett, son of Mr and Mrs M Barrett, Kilmallock, was electrocuted in the local sports field.

It appears the boy was on his way home from school with other children when he came in contact with a loose strand of electric wire. He was medically attended by Drs Ogilvie, O'Connor and Brannigan and Miss Rice, who applied artificial respiration without effect. Rev O Moriarty, O.C., Kilmallock, also attended the boy.
