DROMCOLLOGHER FINALS

The finals of the Billiards Tour-

The finals of the Billiards Tournaments, senior and junior, promoted by the local Social Club, were decided during the week, and the large gathering of spectators witnessed a most interesting display. In the senior final both ends of the town were in opposition, Mr. J. Forester, Charleville Road, meeting Mr. J. Barry, North Road. Giving a very finished display, J. Barry led all the way up to the 200 mark, but at this stage the artistry of his opponent became apparent and his opponent became apparent and despite a good break of 28 by Barry, Forster took the lead, and after a very fine display ran out a good winner on the score:—Forester, 300; Barry, 256.

The junior final also provided a most interesting struggle between P. Noonan and M. O'Farrell. The

former took an early lead, which he maintained up to the closing stages, but a break of 21 by O'Farrell placed him in the lead, and the final count resulted: O Farrell, 100; Noonan, 93.

The medals were presented to the winners by the donor, Rev. J. Browne, C.C., president of the Club, who paid tribute to victors and vanguished.

the San Francisco Conference.

Even with the best and most unselfish intentions in the world, the clearing up of the mess on the European Continent will be a colossal and testing task. The problem will require the most skilled. thorough and sympathetic handling, and unless it is tackled in the proper spirit the result will be tragic and disastrous for humanity in general. No efforts for the restoration of stable conditions can succeed if lurking behind them is a readiness or desire to gain some advantage at the expense of others or to plan for some future aggrandisement.

2

For the past few years statesmen everywhere have been loud in proclaiming the need for a just and lasting peace. The delegates at the San Francisco Conference have now a splendid opportunity of giving full effect to the sentiments so frequently and so elaborately expressed in this regard. They certainly have it in their power, if they have the genuine will, to ensure that reason and fair dealing all round, instead of a resort to brute force, will effectively operate henceforth. in any international differences or disputes that may arise. No effort in this direction, however, can have anything like full and permanent success unless it is based wholeheartedly on the spirit of the Pope's recent declaration that "whatever exceeds the limits of justice and equity will sooner or later certainly turn to the very great hurt of vanquished and victors alike, since there will be hidden the seeds of new wars."
