

to continue their business at normal production levels, mentality as any other employer. People like Mr. Callaghan had kept business going even when they could not do so.

It was proposed that three members of the Council, with the assistance of the management of the factory, should be in charge of the management of the factory as soon as possible in order to have the Tennerly production during the three months of normal supplies of raw materials again available.

The Council seconded this proposal and the original proposition was adopted. The Council decided to adopt this proposal.

WATER SUPPLY

At the meeting of the Limekiln Council, Mr. P. Cusack pointed out the defectiveness of the water supply at Killeely and the pressure was so bad that many households had no water at 9 o'clock in the morning and 1 o'clock at night.

The Engineer said he could not do anything for this position but that the supply would be improved as soon as the new works were in operation in the future.
