rainfall, which is below average, was mostly liquified snow. Conditions in the city, with the exception of the morning of the 24th, were good as compared with these which prevailed in other cities and towns. Weather prophets tell us that a bad season is to be expected. Well, we hope that this will not prove true, and I am inclined to think myself that we can expect a fairly good summer and autumn. February, 1947, will be remembered as one of the worst as regards weather records available for the past fifty years. We, citizens, have a lot to be thankful for in spite of bad fuel and many casualties amonst the aged.
