**EGG CUSTARD.**

Have your baked egg custards a  
 tendency to shrink and look  
 watery? If they have, then it is  
 because you cook them in too hot  
 an oven and for too long. Bake  
 them in a very moderate oven for  
 about 40 minutes. To make doubly  
 sure, you could stand the tin con-  
 taining the custard in a second tin  
 containing water.
