WHEN CIRCUMSTANCES PERMIT.

The letter added that the erection of a new Fever Hospital to serve the City and County of Limerick should be postponed, as also should the proposed conversion of the City Home and Hospital to accommodate a hundred additional T.B. patients. The Minister, however, wished to assure the Council that when circumstances and the time appeared to warrant the carrying out of the latter group of works, he would not hinder their execution.

T.B. PATIENTS.

The Mayor said that the only thing which would really affect the Council's plans was the suggestion that the provision of accommodation for a hundred more T.B. patients in the City Home should be postponed. The Council should, however, be glad that provision was being made by the Department for the erection of the new maternity hospital, which was really a great need in the city.

The matter was not further discussed.

(The Minister's suggestion regarding a new maternity hospital is dealt with under a separate heading).

NEW CO. LIMERICK ROAD

Work has commenced in the making of a new road at Caherguillamore, Bruff, under the direction of the Limerick County Council (writes our Bruff correspondent). This new road will be about a mile long, will connect up two public highways, and facilitate a great number of people living in between, including many farmers. For some time back local bodies, including the Bruff Parish Council, have made requests for the construction of the road, and the commencement of the work is now welcomed, as it is giving a great deal of much-needed employment in the Bruff district. A large number of men are employed on the work, which is a big project.
