2 MRS. JOG THE JUGGLER'S WIFE bought new Gibbs—red, blue, green cases—a different colour for each one in the family.

4 MR. JOG is Top of the Bill now! His smile seems to last for ever—just like his new Gibbs dentifrice. What a thrifty way to health and wealth!

Mr. D. J. Moylan, Chairman, presided at the annual general meeting of the Newcastle West Branch of the Deel Anglers' Association, which was attended by over sixty anglers from the town and district.

Appealing for support for the drive to reorganise the Branch, the Chairman said large stocks of fry had been distributed in the past, and it was the intention of the Central Council to allocate the entire hatch of this year's ova to the Newcastle West portion of the river.

Addresses were also delivered by visiting members of the Central Council, including Mr. O'Brien, who congratulated the Branch on the fine attendance, and gave details of the hatchery at Askeaton, as well as the means adopted to "down the river" to prevent poaching.

As the result of an appeal made to all present to take out membership cards for the 1949 season, 30 members re-joined, and many others promised to do so for the coming year.

All the outgoing officers were re-elected.

DEATH OF MR. JOSEPH CLANCY

The passing of Mr. Joseph Clancy, 24 Edward Street, Limerick, has evoked deep regret among his wide circle of friends and acquaintances.

For a number of years the late Mr. Clancy was attached to the staff of Messrs. William Todd and Co., and was held in high regard by the management, as well as by his working colleagues. As a member of the Arch-Confraternity of the Holy Family he filled the position of Orderly.

The funeral last Sunday to Mount St. Lawrence Cemetery was very large and representative, and a Guard of Honour was provided by the Orderlies attached to the Arch-Confraternity.

GRAIN FOR LIMERICK

The "Irish Spruce" is due to arrive at Limerick on February 9th from Baltimore, U.S.A., with a cargo of 3,000 tons of grain.
