**NEW INDUSTRIES**

**ENNIS STAKES A CLAIM**

Ennis Urban Council has requested  
the Minister for Industry and Com-  
merce to furnish them with a list  
of persons desirous of starting new  
industries in the country (writes  
our Ennis correspondent). The  
Council is prepared to facilitate  
such persons by providing them  
with a site and will co-operate in  
other ways to make the industry a  
success.

Mr. O. Linnane said the town was  
badly in need of a factory for the  
employment of men. It may be  
possible to get such an industry  
started, as the Minister for Industry  
and Commerce was in favour  
of establishing new industries  
wherever possible.

A laundry was mentioned, but Mr.  
E. F. Kerin said that matter had  
been closely inquired into years ago  
and abandoned as not being feasible.

The Chairman (Senator T. V.  
Honan) said the matter could be  
fully discussed when they got the  
information they required from the  
Minister for Industry and Com-  
merce.

**VOTE OF SYMPATHY.**

C.I.E. A.F.C. — The Committee  
and members of the above Club  
wish to tender their deepest sym-  
pathy to James Madigan and  
James Keohe in their recent ber-  
eavement. — James McNamara,  
Hon. Secretary. (p)

Brigade, with bells tinkling, creat-  
a great stir. People rushed out  
their houses to join in the chase an  
to add to the commotion. Th  
question on everyone's lips wa  
"Where is the fire?" But ther  
was none, and, in a flash, it wa  
realised that a hoax had been playe  
on the Brigade.

**VERY SERIOUS.**

Whoever was responsible for this  
"smart" piece of work should fee  
ashamed. It was a crime against  
the community to take the members  
of the Brigade away from their  
station in search of a non-existent  
fire. If this conduct were to become  
infectious it would mean that the  
Brigade could not accept any call as  
genuine, with the result that serious  
damage to property and, possibly,  
loss of life, might follow. People  
who go in for what are called  
practical jokes are usually of a type  
bereft of any sense of responsibility.  
But the calling out of the Fire  
Brigade just for "fun" is a matter  
that should be strongly condemned.

**CONNECTION SEVERED.**

After a service extending over  
thirty-three years, Dr. P. J. Irwin,  
R.M.S., has severed his connection  
with the Limerick Mental Hospital.  
On Saturday he was made a hand-  
some presentation by the members  
of the Hospital Board, whom he  
subsequently entertained. The warm  
tributes paid him were richly  
deserved, for Dr. Irwin at all times  
took a deep, human interest in the  
patients committed to his care. On  
going into honourable retirement he  
carries with him the best of good  
wishes and the hope is universal  
that he will be given long years in  
which to enjoy his well-earned rest  
from arduous and exacting duties.
