Treaty Stone In The New Price Scale French Students In Disrespect For Kilmallock Tragedy Minister To Open Buildings

Great Success Assured PROPOSAL TO HAVE IT REMOVED

ATRACTIVE DISPLAYS IN STALLS TOWARDS IN HOME CRAFTS SECTION

THE MANAGER (Mr. M. Macken, B.A.) proposed to remove the Treaty Stone memorial from its present location and have it re-erected in the grounds of St. Munchin's Church.

When the Manager submitted his proposal to a meeting of the Corporation on Monday night, the Mayor (Mr. G. B. Dillon), presiding, was decided to defer taking a decision until the citizens were given an opportunity to express their views.

When dealing with the disposition of grants for relief schemes the Manager (Mr. M. Macken) said the schedule included the removal of the Treaty Stone from the corner of Thomond Bridge to a site in the grounds of St. Munchin's Church, which was directly opposite.

Mr. P. J. Donnellan said he agreed that in its present position the Treaty Stone was a danger to modern traffic.

Mr. M. B. O'Malley—This suggestion has been more or less sprung on us and I would prefer to have the views of the citizens before taking any decision.

Mr. G. E. Russell asked if the monument could not be moved nearer to the river wall to provide a better passage.

Mr. O'Malley—That would be very expensive and not satisfactory. We propose to take down the monument stone by stone and re-erect it in the church grounds.

Mr. P. J. Cusack said he agreed that the Treaty Stone was an obstruction and thought it should be removed without any delay.

Mr. O'Malley—A few weeks' delay will not make the slightest difference to the monument.

Mr. Cusack proposed and Mr. Conroy seconded that the decision upon the Treaty Stone be approved.

Mr. O'Malley proposed and Mr. Russell seconded an amendment that no decision be taken until the next meeting.

THERE has been no immediate change in the supply of hides to the Limerick Tannery of Messrs. O'Callaghan as a result of the new schedule of prices for cow and ox hides fixed yesterday by the Department of Industry and Commerce.

Today, Mr. McCoy, managing director of the City Tannery, told a Limerick Leader reporter that although he anticipated an early improvement in the supply of hides, he had received no intimation so far that his hopes were not unfounded.

At the moment we are just about to keep open," Mr. McCoy told our reporter. "Our reserves of hides were small when the crisis began. Since then we have eaten into them to keep the Tannery open. We have to keep the Tannery open because it is necessary for us to get new supplies immediately. If we don't, we will naturally have to close down."

Mr. McCoy added that actually it was too early yet to express an opinion on the potential general effects on the tanning industry of the new Government schedule of prices. "I have no comment at all to make at the moment on the prices themselves," he said. "That, too, is a matter for the future."

The Department's new schedule of prices provides for an increase of 2/3d. a lb. in the rate to be paid to tanners for cow hides and a reduction of 1/2d. per lb. in the price of ox and heifer hides.

In an interview with a Limerick Leader reporter today, Mr. R. McCarthy of Messrs. McCarthy, Wool and Hide Merchants, Limerick, said that as far as he was aware, the new scheme was prepared by the Government without any consultation whatever with the representatives of the trade interests affected.

Mr. McCarthy pointed out that the prices fixed applied to the tanners. As far as he could see there was no provision at all made for hide collectors.

Mr. McCarthy pointed out that the prices fixed applied to the tanners. As far as he could see there was no provision at all made for hide collectors.

THE MANNER in which the playing of the National Anthem was observed in the Limerick cinemas was the subject of complaints at a meeting of the Limerick City Council on Monday night.

Mr. P. E. O'Malley, the Mayor, presiding, said that the matter which he whelan said that the frequency with which the National Anthem was disregarded by people rushing out of cinemas was a disgrace and very bad example to the many visitors who came to Limerick these days.

Addressing the students, the Mayor said—On my own behalf and on behalf of the citizens, I sincerely welcome you to the old historic City of Limerick, which for centuries past has links and enduring connections with France.

Mr. Russell said that it was a sad reflection on the people that the National Anthem should be so disrespected, but at the same time he would not like to advocate that it should cease to be played.

Mr. P. O'Connell suggested that the Anthem be played at the beginning of each programme.

Mr. Whelan—There would then be people walking in and out, and the thing would be worse than ever.

Mr. Russell's proposal was adopted unanimously, and the Mayor undertook to interview the managers of the various cinemas to ascertain what could be done to remedy the position.

Following a conference held today between the Limerick Master Butchers and the assistant butchers, it is expected that there will be an early settlement of the three months' oil butchers' strike in Limerick.

The City Manager said that the signals at the William St.-O'Connell St. junction.

Mr. J. C. Hickey asked the City Manager (Mr. M. Macken), at a meeting of the Limerick City Council on Monday night, if anything had yet been done about acquiring the Lady's Lane sites for housing.

Mr. Hickey said that the sites should be acquired, so that when the time came there would be no unnecessary delays in starting to build.

SHORTLY after midnight on Saturday, Mr. Richard O'Driscoll (21), a native of Malloy, and a C.I.E. clerk employed at Knocknagall in the Limerick County Hospital at Croon, as a result of injuries received when the car which he was driving crashed into John's Castle, Kilmallock, in the early hours of Friday morning.

An inquest into his death was held at the County Hospital, Croon, by Dr. John P. Cleary, Coroner for East Limerick, and a jury of the form of whom was Mr. Denis Toomey.

Dr. Kevin Jones, in evidence, said that he examined the deceased at Kilmallock at 3.30 a.m. on the 19th August, and again on his admission to the County Hospital about half an hour later.

AT the meeting of the City Council on Monday night, Mayor (Mr. G. B. Dillon) presiding, it was stated that Dr. Browne, Minister for Health, would declare war on the Thoracic Unit and other buildings at the City Home.

The Manager (Mr. M. Macken, B.A.) informed the Council that the new Thoracic Unit, the Rehabilitation Block and the T.B. Annex at the City Home would, according to the architect, be ready for occupation by September 8th, and arrangements could be made for the opening of the new facilities by the week commencing September 11th, when everything would be in readiness. It was decided to invite the Minister for Health, Dr. Browne, to open the new institute on any date convenient to him after September 11th next.

Mr. O'Malley asked if the Council was to consider the schemes that would be most beneficial to the community.

Mr. Russell—I think the schemes that have the highest financial content should have preference.

Mr. O'Malley—I agree that should be the lines we go on.

On the proposition of Mr. P. J. Donnellan, seconded by Ald. D. Bourke, it was agreed to the re-surfacing of Nicholas Street at a cost of £3,371.

The Manager suggested that certain schemes be eliminated and the Council confine itself to the amount of money it had on hand.

After a long discussion, the following extra schemes were approved: (1) Re-surfacing of Nicholas St. and junction of Victoria St. £2,371. (2) Re-surfacing footpaths at Sarsfield Bridge with concrete flags—£638. (3) Re-surfacing Thomond Bridge with concrete and improvements to junction of Clonmel Road with Clancy Strand—£2,311. (4) Surfacing Barrington's Bank—£1,367. (5) Raising and re-surfacing the junction of Mallow Street and Victoria Street—£1,600. (6) Construction of public conveniences at People's Park—£2,250. (7) Handball court at Killeely Playground—£950. (8) Re-surfacing entrance to Jansboro in tarmac—£343. (9) Dressing rooms, etc., with gates and railings at Shelbourne Park—£2,595.

Mr. O'Malley proposed and Mr. Russell seconded an amendment that no decision be taken until the next meeting.
