

(To the Editor, "Limerick Leader.")

Dear Sir—I wish to protest against the procedure adopted in the postponing of the Charity Cup final at Thomond Park, yesterday.

Players and spectators were kept outside the gates, including the captain of the Young Munsters team until 3.20, when we were informed that the match was off, due to the pitch not being playable. Who arrived at the decision to postpone this match, which was eagerly awaited by all rugby fans in Limerick? Did the Grounds Committee or the respective captains have any say in the matter? As Hamlet said: "There's something rotten in the State of Denmark."

Hoping you will be kind enough to give this the publication it deserves

Yours faithfully,

"GARRYOWEN AND GLORY."

God watched her as she suffered,

He gently closed her eyes

And took her to His care.

Where farewell is never spoken;
We shall clasp each other, hand in hand,

And the clasp shall not be broken.

FOREIGN GAMES AND THE RISING

(To the Editor, "Limerick Leader.")

Dear Sir—I wish to commend your paper on the very fine article which appeared under "Things that Matter" on the 17th instant. It was truly a revelation.

On reading through another part of the same edition, I noticed that at a meeting of the Limerick County Board of the G.A.A. a member had the audacity to state that "he doubted very much that rugby or soccer players took part in the rising." What an utterly ridiculous and groundless statement for any decent Irishman to make whether he be a member of the G.A.A. organisation or the "Foreign Games" code.

A statement like that could be very misleading and the member responsible for it should have his statistics or proof before him when making it, which would make that a physical impossibility as there are no such statistics available.

However, the G.A.A. have their own private branch of the "F.B.I." and I'm sure these are the culprits responsible for the forgoing member's statement.

Thanking you for allowing me such valuable space in your ever popular paper.

I remain, yours faithfully,

"EX-GAEL."

Another type of lake Gillaroc, is more "civilized" habits. The dietary of bellied, large spotted consists of snails. The liability of this fish lies in its habit of appearing at the stomach, with a lump to appear in the throat. A deformity is supposed to be caused by the large number of snails it eats.

The following appeared in "Boys" some time ago: "A mouse of Pulney Lock was seen in a curious occurrence: a mouse was thrown a live mouse into a lake, and a large trout was seen to come down immediately. I was present at the time. I hooked a trout and laid it on the bank. In a few seconds, the mouse ran into the trout's mouth, and made for a wall."

During the past week Limerick was in poor condition owing to floods. Upon reading of writing I have heard of being killed.
