

evening last.
 Messrs. T. Herlihy, Organising Secretary, Muintir na Tire, and O'Donoghue, National Executive, addressed the meeting by invitation. Both were welcomed warmly by Mr. T. R. Murphy, C.C., presiding.
 Mr. Herlihy said that but for the presence of the Development Association, Charleville would have had Muintir na Tire Guild two years ago. The existing body had done a considerable amount of useful work for the welfare of the town; they to amalgamate with Muintir na Tire, more work would be done for the town itself and its surrounding area.

Mr. O'Donoghue gave the meeting an outlined history of Muintir na Tire and told of its aims and objects.

Mr. O. S. Binchy said Muintir na Tire seemed to have the very same objects as the Development Association.

After some discussion, the Chair proposed that the question of amalgamation with Muintir na Tire be referred until after the Association's annual meeting.

This was agreed to unanimously.
