electricity for lighting purposes, there are still many homes in the country (as well as in the towns) where gas only is used. Before using new mantles soak them in vinegar for a few minutes. Take out and leave to dry for several hours before using. This treatment toughens the mantle and it will last longer.

SUMMER STORING.

To prevent moths from attacking winter clothes and blankets, etc., store in a box or tin container and seal all edges with adhesive tape. If the garments are wrapped in newspaper first of all, this will be an added advantage.

She was sister-in-law of Mrs. Mary Lawlee. Deepest sympathy is offered her husband and sister-in-law on her death.

"During the year we have tried to cater for the economic, the social and recreational side and adult education in the parish.

"In reviewing the work of the year I place the carnival week, recently concluded, as one of the outstanding events. Bringing carnival amusements to a parish such as Ardpatrick could rightly be considered a doubtful venture. Weather conditions and the clashing with other events in adjoining parishes did not favour us, but despite adverse circumstances the carnival was a big success socially and financially. A special word of thanks is due to the stewards, who worked night after night and contributed so much towards its success.

THE PARISH PLAN.

"In connection with the Parish Plan, a public meeting was held, to which were invited representatives of adjoining Guilds and local members of County Council.

"Rev. Father Culhane, of Mahonagh, addressed the meeting at length and explained in great detail the working of the Plan and the many material benefits to be derived from it, especially by the farming community. The meeting concluded by unanimously deciding to adopt the Parish Plan, and since then a considerable amount of preliminary work has been done in
