wire or padding or examining them  
in any way, for you can so easily  
chip a piece off. Similar care  
should be exercised in drying the  
stems of wine glasses, for they can  
so easily snap off.

**CHAMOIS LEATHERS.**

A badly soiled chamois leather  
should be soaked in a pint of soapy  
water containing three table-spoon-  
ful of ammonia. Work the leather  
about in this, then rinse in tepid  
water, rub well, and rinse in three  
fresh waters.

**ACCUMULATOR ACID.**

There are still many homes where  
a battery-operated wireless set is  
used. If you spill acid from an  
accumulator on a carpet or your  
clothes, apply ammonia at once.  
This will prevent the acid burning  
a hole.

**CARE FOR SKIN SHOES.**

Skin shoes should be cleaned this  
way:—Make sure that all dust and  
dirt are removed from the shoes,  
and then sprinkle a few drops of  
peroxide on to a small sponge, and  
lightly rub all over the skin. Place  
to dry—preferably in the open air—  
for about 45 minutes, and then  
polish with a soft duster.

attend.  
Mr. J. Binchy, solicitor, defend-  
ing — That's a coincidence. My  
clients aren't able to be present  
either and I was just going to ask  
for an adjournment.

Both solicitors agreed to a  
month's adjournment, and Mr.  
Binchy said there might be a  
settlement meanwhile.

The Justice adjourned the case  
for a month.

**DEATH OF MISS K. NOONAN,  
GRAIGUE**

Deep sympathy is felt for Mr.  
John Noonan, Graigue, on the death  
of his sister, Miss Kate Noonan,  
which took place on Monday. The  
funeral to Castletown - McEniry  
Cemetery was large and represen-  
tative.

Rev. D. Kelly, P.P., Bruree; Rev.  
M. Kelly, C.C., St. Munchin's; Rev.  
P. Kelly (cousins); Rev. P. McNamara,

Mr. Liston, applying for
