IMPORTANT BUSINESS

People are apt to forget that health management is the most important business in which they can be engaged. It requires only a few moments' reflection, however, to realise that, if through neglect or ignorance one's health is injured all one's efficiency and enjoyment of life is impaired. You simply cannot afford to let yourself get run down or to ignore any symptom of impending ill-health. Whenever you have any reason to believe that your stomach is out of order or that you are inclined to be bilious or constipated, you will be wise to take a dose of Beecham's Pills and to continue taking them according to directions until you feel quite all right again.
