(FROM OUR (:ESPONDENT.)

held at Glin Orsamery Stores for the purpose

of establishing loosl casele fairs.

A large menticg o the partenganers was

predaote .- This sions necessitated a sulon of lease, his an employer and his own capitalies. their body. The com Ireland less anz ally in In co-open ion with their fellows, or even with this respect was enormou . He pointed out the present owners of c.edit and capical, specially what Denmark had done in this workman should aim at securing a shara in the matter, and how seenly alive the Governmens | management of the concerns in which they ci Denmark was to the sconomic development worked. Wages, hours, shup conditions and of their country. If the farmers of Ireland discipline, hisposition of employes, working did not combine in a bold manner for their own | agreements shortage of work, new protection anybody could see what the result chinery, improvement of inizitial would be in the time to come. In pre-war days | cesses and bester organisation, and she Irish butter, shough the most nutritions | general polley of production were questions In the world, did not command the highest in which labour should have a say proporprices in the big centres of consumption. In tionate to its share in the production of any order to gas she full value of our extra pro. particular form of wealth. Then if employes duction the ports of Ireland should be open. It | shared directly, or through représentatives, in was a well known fact that our Irich beef was the management and control of an industry. second to none in the world. He saw from the shey should chara is a greater or less degree in Prese that efforts were made in certain direc. the profits das to some extent to strirexerilons. sions to raise the embarge on the introduction Of course the individual employes did not take of Canadian cattle into Ireland. The lifting of the same tisk of loss as the employer, who had this embargo would mean rain to the Lish a greater stake in the concern, and before dividcattle trade. No man could possibly estimate ing profile, a sufficient reserve should be set what it would mean to the Icish farmer. Now | aside to stoure the employer egainst losses. was the time to tackle this question before any | And by employer he means the owner of the haim was done to the Irish producer. He was | capital, whether individuals or shareholders of of opinion that the average Irish farmer was a company. Such a chaoge as he had in soo indifferent as to where his interest really | dicated would, he thought, benefit the class of lies. Recolutions may be very good in their small employers. If these two reforms were way, but simely action was necessary for | introduced generally the transition would, he success. The Mational Executive of the Irish | thought, be easy from the present intolerable Farmers had done their part, but that section | state of things to one in which the majority of should be backed up by every branch in the the citizins would erjoy what ownership alone country. Their meeting that day should be could confer-personal security and real social much larger, but he believed there was teason | and political power. Such was the goal to for non-astendance for many farmers in shelr | which traditional Catholic teaching had always wide area. He was care their Organizer (Mr | pointed.

Waishe), who was present, would take she practical steps necessary to get enrolled every farmer in the parish. Mr Walshe said that the obsirman had gone

over the ground on the necessity of organising and they would now come to the practical work of the organisation of the Branob. The nsefulness of any branch would depend on the committee formed in the district.

The Organising Committee

The following were appointed as an organising commisses-Messrs T Humphreys, Gienstal; M Ryan, W Cusack, Michael Egan, Abington; M O'Gorman, Glenebal ; M Hayee, Mohar ; M Ryan, Murree Oross; F Egan and P Ryan (Lefann), J Devane, Cappamore ; and O Loursigan and Con Hayes, Hon Sees.

Address by Urganiser

The Organiser was requested to the district at the first available opportunity, Mr Walshe promised to visit the distribut Tuesday and Wednesday, the 8,h and 9;h inds. The Organiser also mentioned the case of the [

less to their kindly and gental matter was immense, and could not be repaid by any g is whatever is intrinito value (bear, hea) it was and provided part of his plan. Miw, to the not in that ep'ils they had foregathered, bal :0 place on record their regard, esteem, and aspec, for Mr Crowe, and in that spiris alone they eaked him to accept the little tr bute they were making him (uppianss). Mr Mulqueen then made the presentation, and wished Mr Orowe many years to erj y his well deserved the reas from the trials and versilons of an ardaons lice work.

Mr Eiward Murphy, in supporting the pre- did these things, or that is was the Irlan them. sentation, said if there was any particular seives who did them In the some epirit antries shing characteristic of Mc Growe, that was tots him by Mr Muiguesa so say of Mr Crowes excellent oushies of both brad and hears Is was a g cit pleasure to them to meet that evening to pay a descrived tribule to their Dast teacher, who well descrived any tribule mey tould pay him (hear, heat)
