#### ATTRACTIVE AND IMPORTANT SALE BY PUBLIC AUCTION OF THIS Exceptionally Desirable FATTENING AND DAIRY FARM

OF 112 1/2 ACRES (Statute Measure), or thereabouts, together with an up-to-date two storey slated Residence, Out Offices, Hay Barn, etc., the sale held in the presence of the Irish Land Commission, and certified by a certificate of value of £159 6s 8d; 7000 lbs Valuation, 2174 lbs; Board of Works charge, £29 6s (open to expire) TO BE HELD

On WEDNESDAY, 20th APRIL, 1921, AT TWELVE O'CLOCK NOON (New Time) At the Salesrooms, 7, Davis Street, Limerick. By instructions of Michael H. P. R. Esq.

THIS land is noted for the prime fattening quality, and most suitable for dairying of young stock, and as present is under grass of very rich quality, with the exception of about 2 acres of tillage (3 here already sown with winter wheat, 2000 lbs per acre) and 1000 lbs of clover, well fenced, with excellent shelter belts, and a fine stream of water supply. There is also a valuable gravel pit on the farm, with a good road front and vegetable garden adjoining the house, most desirable and well out.

The Residence, a handsome slated two storey suburban one, contains hall, dining room, drawing room, 4 bedrooms, large kitchen (with range), also a back kitchen, scullery, servants' apartments, etc., with good sanitary arrangements.

The Sited Outfittings standing on a spacious yard comprise:—Stables for 30 cows, ample stable, coach house, store houses, pigsties (with 1000 lbs of pigsties) (75 tons), all in perfect order, with pump close to yard.

The Assessor's view is that the farm is of the highest quality, and as it is in a position to be used in any form of agriculture, and having regard to the position of the farm and markets of Limerick and Bruff, as well as being only 7 miles from Ballyneety Creamery, a most favourable opportunity is offered for acquiring a realisable property of considerable value, which will be fully appreciated on inspection.

Usual commission of 5 per cent.

M. Thomas Johnson, Secretary of the Irish Labour Party and Trades Union Congress, has called attention to the fact that in Ireland all streets there is a wide disparity between prevailing prices and those that should be charged if reliance is to be placed on statements emanating from British Government sources.

"I have taken," he says, "a rational case adopted by the Irish L.G.B. before the war as a basis for arriving at the quantities and weights for the purpose of making a fair comparison, and I have compared the prices ruling at the end of March this year with the prices in the same town for the same articles in March, 1914."

The result of the comparison is decidedly illuminating. It shows, in Mr. Johnson's own words, "that if we take the figure 100 as representing the cost of the ration in March, 1914, the present cost is 237, a rise of no less than 137 per cent. The British Board of Trade figures show a rise of only 140 per cent in the same period, yet it is on the figure that this arbitrage, speculation, hoarding, the Minister of Labour and other very warm advocates of wage claims."

The point raised by Mr. Johnson is an interesting one and suggests thoughts and considerations that deserve much more attention than they appear to have been receiving up to the present.
