Maynooth Mission to China.

THE Maynooth Mission to China is a Society of priests and students which, with the approbation and encouragement of the Holy See and of our Bishops, has devoted itself to the conversion of China. We have established in Ireland two Colleges for the education of students who have given their lives to this work.

Last year our first band of 16 priests arrived in China, where they have begun the work committed to us by the Holy See of converting FIVE MILLIONS OF PAGANS. They have only a few houses for their own accommodation; they have only nine poor chapels and an extremely small number of schools. They have appealed to us now very urgently for extensive and generous financial aid to enable them to provide a number of houses for themselves, chapels for their people, and schools for the hundreds of thousands of children who are clamouring for Christian education.

NEXT SEPTEMBER ELEVEN PRIESTS WILL LEAVE US FOR THE SAME DISTRICT in China, The expenses of their voyage to China and of their outfits will be very great. The cost of finding houses, chapels and schools for them in China will be enormous.

IN AUGUST FOUR TEACHING BROTHERS will leave to found a good High School in our district. This in itself, will involve great expenditure. I appeal, then, urgently and earnestly, to our Catholic people to give us, IMMEDIATELY, generous assistance to meet all these demands at home and in China. The saving of MILLIONS OF SOULS in China depends on your charity and generosity.

Benefactors have the following advantages:—

1. 1,500 Masses are said each year for their intentions;

2. A special Mass is said every day of the year for their intentions; 3. Solemn Requiem Office and Mass are said each year for

deceased benefactors; 4. They get the Apostolic Blessing of our Holy Father

Kindly cross all cheques and money orders "Bank of Ireland, Tuam," and make them payable to-REV. JOHN BLOWICK,

Women of Ireland

HAT are you doing for your country? In your hands lies the power to effect the economic liberation of Ireland.

Four-fifths of the money spent in Ireland is spent by the women of Ireland. Last year they spent £64,000,000 on ir norted goods, while Irish men and women emigrated for lack of work.

Do your share to remedy this. Let every purchase you make in the future be of Irish make. Begin with these brands-their quality is unrivalled.

LIMERICK LEADER.

THE inte war has left the world a huge legacy of debs, disester and brade depression. It was the most frightful catastrophe not only of our time but of all ages. In addition to its positive and glaringly obvious results is brought in its train an aftermath of avils the baneful influence

of which are hardly yes fully realised. Horrible, however, as was the steamle confilet that burst upon Burope in August, 1914, that terrible straggle, in the opinion of experts in each matters, was mild in its hideousness in comparison with fature wars of anything like similar proportions

Science of what may be called the devilish order to continually busy devising new an improving and perfecting old angines and agancies of destruction, and hitherto undreamt of terrors and forms of devastation are pradiesed and promised as the additional features of any armed clashes that may arise between navious from this forward.

These soosiderations and others constitute compelling reason why thoughtful and en lightened men of peace everywhere should do | To say that the rifle was an effective what lay in their power to advance the canes of world disarmament as far as is would be shown away in the wood, if is could be called possible and safe to affect that end.

Democracy has had little voice in shees things up to the precent, it is true, but the he could. people after all are the altimate masters of the signation, and if they but voice their feelings | the not noder effective military control. in no uncertain way they can make their views prevail with those whom they set up as rulers and legislators.

These thoughts are suggested and rendared timely by a message just published from Washington stating that the Sanata of the United States has unanimously adopted the Borah amendment to the Navai Appropriation Bill, to Press. requesting President Harding to invite Great Britain and J.pan to join the United States in Westmoreland et, Dublin a disarmament conference.

> It is anything but oreditable sither to the good sense or the hoursty of the nations that shey should sail!, in this awentisth century, be wasting tremendous sums that pould otherwise be employed to good advantage, and losing the productive espacity of hage armies of men, in she keeping up of immense bodies of fighting

The maintenance of big armies and navies is a double loss to a concary. It diverss inordinately large sums from reproductive to mare. productive purposes, and means she withdrawa of vast numbers of abla-bodled men from work hat would give a seafal return and thereby banefis all classes of the community.

To-day we look back-and rightly so-with something like playing contempt to the foolish sime when all personal quarrels between men were settled by an appeal so swords or platols. And in the lass analysis is is as abrend for hattons to resors to the pattlefield in order to somp se their differences | to the O in C " se it would now be for men to turn to dueling as a means of avenging thek wrongs or vindi-

cating their honour and shell pride. For shese reasons, than, the action of the United States Senate is to be hearfily we comed and should gos world-wide andorsemens. It is to be hoped the Conference suggested by that body will promptly ascemble, and that the result of its deliberations will be a speedy dising of the erashing burden of armaments now weighing down and hampering the progrees and prosperly of all the great mations.

The plain truth is the Irish farmer is to-day made a target by the foreigner to direct his chaits so as to bring about his sconomic rain. The alleged foot and mouth disease directed against the Irich cattle trade is a powerful weapon to accomplish its ruln when it has been proved estisfactorily that no such disease exists in Ireland. The Irich farmers have | Waterworks, is was decided to re-advertise. been most particular in the past in reporting any symptoms that may appear amongst their farm animals, and it must be characterised as a base accusation that the dissage existed in Ireland when not a single erase of it could be found. It is a case of the old, old story. When any Irish industry showed signs of healthy development measures were taken by the foreign competitor to deatroy it. Our woollen trade was destroyed by the foreign competitor, who had the sar of the powers that then existed. Our woollen mills through the country, now in ruins, ought to be powerful object lessons to the producer of raw material in Ireland. It is only by organisation that the farmers can combat the unfair method of competition adopted by the

foreigner in the big centres of consumption. It is to-day an embarge on the exportation of Irish butter and bacon; to-morrow, foot and mouth disease; the day after, free importation of repairs. Canadian cattle. In short, the Irish farmer must or to more become an abject slave to toil incessanty for what is known as the superman, but who a reality is an arch-despoiler slothed in the hypocritical garb of the good Samaritan. who persuades you he exists for your benefit, as the same time fattening on the very vitals of our national existence. It has been acknowledged by even English Snanciers that Tretand had been over-saxed directly to the tune £3,000,000 per annum, but this was a compara-

tively small cam taken anjustly when it is considered that indirect taxation was enormous. All the farmers present were called apon to join she organisation and lend a helping hand nowards the emancipation of themselves and their common country. There is no doubt that If we had our large abbasoir in Waterford instead of in Birkenhead and other foreign parts we would hear little of foot and mouth disease. The farmers of this district should give the Waterford project their whole hearted support, so that the moment Irlah reconstruction takes place the Waterford Committee would be ready to begin their operations and put the proposed concern going without the

least possible dalay. KEEP A SHARP LOOK-OUT

While one should not be over anxious about one's health, it is advisable at the same time to be on the look-out for any symptom of digestive trouble or constipation. Prompt action is always the most effective and a dose of Beecham's Pills at the onset of an attack is generally sufficient to prevent developments. At any time when you find that your bowels are not acting freely or regularly, or when you have reason to believe that your stomach is somewhat out of order, you should at once get your box of
