> The "Limerick Leader" circulates extensively all over the counties of Limerick, Clare, and Tipperary, as well as in several districts of Cork & Kerry. It claims—and Challenges contradiction of the fact—that it has by far the Largest Circulation of any tri-weekly in Munster.

A regular advertiser, forwarding a repeat order, says: "I must say that advertising in your valuable paper gives me every satisfaction. and has brought me excellent results in increased and increasing business."

The tribute is but one of several received from time to time, but it has a peculiarly compelling lesson and appeal for every wise business firm.

City Bakery Dispute Settled

WE are glad to be able to aucounce that the dispute in the city bakery trace has some to an

The settlement arrived at was the result of conference brought about mainly through the praiseworthy efforts of Alderman Casey, locum lenens Mayor.

The Conference, which book place on Wedpesday, was between representatives of the operative bakers and the master bakers, and was presided over by Mr Sean MacEntee, of the Labour Ministry of Dail Elceson.

Also present at the Conference were -- Mesers P MacAvin, Secretary of the Dublin Master. Bakers' Association ; Mr Oullen, Secretary Irish Bakers' Union, and Mr Moran, Organiser

chabe Lich Bakare' Union. Alderman Casey addressed the conference

but did not take further part to 16. The serms of the settlement agreed to are: -An increase of 10s per week to table hands. bringing thote-wages to £4 10s 0.1 per week ; an increase of 12s 6d per week to ovenmen, bringing their wages to &t 14s si per week ; an increase of 10: per week to dough makers, bringing their wages to £5 0s 01 per week.

It is also arranged that the working week is to consist of six sight hour days, each day to stand on its own basis without any carry over. Doughman are to start at cam, when required, and to act as second foremen.

The question of annual holidays was arjuarned to a conference to be held early next week. The question of rates for approutless was postponed on the auderstanding shas is would be given favourable consideration

Work w.l. be resumed in all the city bakeries on Monday naxt.

The ancondement of the settlement will give general ratisfaution and all concerned are an and a very undestrable and unsatisfactory

BALLYHAHILL AND LOUG-HILL BRANCH

Practical Addresses by Chair man and Organiser

A very successful meeting of the Ballyhabill and Loughi I Branch of the Co Limerick Far mera Association was held at the local Hall,

Ballyhabill, on Sunday: Mr P O Shanghnessy,

The Chairman, in addressing the meeting,

Jointer, presided.

pointed out in a pichy menner the absolute necessity there existed for combination and on operation amongst their body if they were to hold their own in the future. There was no doubt that keen competition would enoue in the world's markets for agricultural produce and the Itlah farmer was heavily handloapped by high rents, rayes and taxes, which absorbed the value of his own labour and that of his family. As the Irieb farmer now stands shere was no second opinion but that he was freed with a condition of bankraptay in the immediate fuenrs. The parent garainments of most European countries and nois ly those of Usuade, Austrella and New Z sland, have agriculturel development. They have introdured one p takes of transit for agricultura products, up to date methods of market, very law rates of exaction which seable the farmers in those occurries and all those who work with them on the land to have a living wage. The price of our lileb wool this pear is tweephonally low; yes the price of our clothes to excepsionally high. Profi coring on a large scale mass wist beew an the rgents, flotors, and manu facturers. Steps mass be immediately taken by the Farmers' Union to oreate a channel from the producer to the manufacturer and consumer in order to render the industry profitable in the fature. There is ro time to belons. Unf rounstely, awing to the condition of things that prevailed in this district for some time pass (ween on the Chairman), we were not able to hold our meetings in the usual way; has now the sime has come for every farmer to become a member as econ as possible, and a great deal can be done in this district by combination and se operation. Gila could be made a nesful distributing centre if the pier there was made suitable for incoming and ourgoing beats. The Limerick Steamship Oo sould be communicated with and see what could be done in the matter. As our Organ ieer Mr Walshe, is present, it would be well to requast him to instrict the Commissioners re a project of this nature. The Farmers Union could do many things that would be of immense use so each locality. The farmers' and agricultural labourers' interests are common. The time had come for combination amonger them before the industry is in jec pardy. If the farmer is weighed down by the cost of production, wishout a reasonable return he caunos employ labour to any large extent and both are bound to suffer. The Organisor, in addressing the meeting. said that Mr O Shanghnessy was to practical in his romarks that there was little left for him to say. There was nobody knew briter the posision of the farmers in the district than the Chairmar. He is a very large and practical farmer (consinual Mr Walshe) Hais a hard worker and he has sesued me that farming this year will not pay. It is up now to the farmers to make their o'gratestion a living thire, and surn is inde a naciul angine of progress in the most important of all industries. Increased production means increased national wealth. ton little bas tadage unitendent production take place if .he furner has not a living wage for himself, his household, and his agricultural workers. Agriculture is a nighty technical business, and nature will not yield her producte without skilled jabour. Progress cannot taka place as long as those sugaged in this indispensable industry are discontented. Diecontant arises from poverty and slavery, and uitimately leads to ravolation. Our organisation must play as important part in the reconstruct sion that will take place in the immediate for ture. The farmers in this district, I am assured, are fully slive to the responsibility that will be oast upon them, but it is only reasonable to expect that they should receive the value of shelr soil. The Organiser, considuing, dwels eprotally on the method of organisation and said he would require on his next visit she number of farmers in the district and also the number who had j intd, the branch and he was full arsured that no farmer would remain outside the renks. What was specially noticeable in

organisation in the county.

The correspondence was deals with in detail. .The following resolution from the Knooksdarry Branch was adopted manimously : "That we, the members of the Knookaderry Branch of the County Limerick Farmers' Ageo clation, do hereby call on all the farmers within the Union not to employ any labouter (mais of female) or any ogciouitural labourer who can not produce a reference from his or her late employer, and we respectfully request the Organiser and General Secretery to couvey this resolution to all the branches in the county." It was pointed out that farm servants, and sepecially milkers, left their employment wishout due notice, leaving cows unmilized, which led to serious consequences. The milch sows suffered severely, and compelled many farmers to sell out their dairy cows and change their system of farming.

The following resolution was proposed seconded, and passed unanimously :- "That we, the County Limerick Farmers Association, much regres that steps are being taken by local landowners to snforce payment of the old rents on unpurchased tenanis, and hops that wiser and more amicable courses will be adopted, and that the fallure of legislation to remedy the cases of the up to now excluded tenants will be met by equitable dealing on the part of the landlores, and brouble and friction avoided. BRUREE SPORTS

(PROM OUR CORBESTONDENT)

The annual cycling and athlette sports were held at Bruree on Sunday isol. The event was, indeed, a happy reunion in the village is well as being a marked contrast to the condisions which prevailed for the past swo years. With the truce in being there appears to be a reorndesence of activity in athletic circles in West Limertok judging by the number of fixtures aiready on the cards; and is should coession no surprise to see Bast Limerick soon falling into line. In the old days Kilmalicck sports was one of the premier-meetings in the South, and it is to be hoped shad we shall soon have the pleasure of seeing a reunion of the Gasts in the capacions enclosure where many exciting finishes "on the wheel" were witnessed in the past. Sauday's event at Bruree was more or less a juvenile affair, and she absence of older ashlesee who would have assended to normal stones ! may be attributed to the face that the sports were announced to be held at such shors notice, being advertised practically only a week or so beforehand. However, this factor did not in any way diminish the success of the and were it not for the very beavy rain which

FIRST AID IN THE WORKSHOPS

demonstrate the senteness of that unparently privial misadventures which in previous for real and permanent reconciliation, they had years would have gone wholly unrecorded, but inflexibly adhered to those points which the now help to swell the list of accidents. Whilst vital interests and safety of these islands this policy substantially reduces the apparent required. rate of improvement there is evidence that the new plan of providing rational "first aid " areasment for all the mishaps of the workshop is materially diminishing the number of acel dants which have serious sequels. It is of course . quite true that nine times out of ten a small abrasion or bruiss will heal isself; yes in the tenth care reptic may some, and the workman be laid up for weeks. Thus the report states that the result of introducing four ambulance rooms with trained nurses in connection with factories in Scotland, employing some thousands of operatives, had been that claims on the factory accident fund have diminished so much that it has been found possible to reduce the weekly contribution from 8d to 2d per head, and at the same time to increase the benefits from 12; 64 to 20; per week. By similar means a large firm of iron and essel manufacturers have, is is stated, reduced their compensation rate from 17s 6d in 1918 to 14s in 1920. The imp ovement here is said to have been almost wholly due to the prevention of the ceptle pelsoning of wounds

WOMEN IN SPORT

The present summer, with its record run of sunshine and long, bright avanings (rays she " Daily Tolograph), has witnessed an latenelfl cation of the sports movement among women and girls which has become such a feature of social life since the war. Sill apparently pot content with her triumphs during the era of hostillies, woman has applied herself to the of her men folk. For them, poor things, the whole tern of events has been a little too sudden. For long their senure of the open spaces had been unchallenged-forcelong, indeed, that they might be pardoned for thinking it unchallengeable. The most ourious thirg about shose haloyon days is that their sieters payer than so much as envied tham the right, much less presumed, so dispossess them of it. But when the men returned from the war revolu slonery obenges assailed their wondering ayes have been slowly dawning ever since upon their stunned senses One of these is the disappear ance of thas old, oberished, but illusory right To man the shock has been rather fatal to

before ventacing even to air an optaion. Quite man to regard to athlette sports has brought with it quite new problems. It has been a spinodid harvest for the sports outfitters, which agement of increased prices. Then the determination of women to join actively in games has intensified to an acuse degree the problem of accommodation, which moet organizations had to face evan before the war. Mr Chamberlain-If it is ascertained before | Since speeding up of house building brought exceedingly inconventedt time. HOW ARE YOU?

Many people have a very poor idea of what it is to be really well. They are quite content so lond as they can manage to get about and do their daily work and keep out of the doctor's hands. Health, however, is much more than this. It means energy, vigour, good spirits. It means fitness in every sense of the word. It means a system that is perfectly nourished and free from ailments, a system in which all the organs perform their functions naturally and thoroughly. If your health is not altogether satisfactory, you will find a wonderful help in Beecham's Pills. They have an excellent, purifying, stimulating and tonic effect and do much to promote good health and physical efficiency.
