beautiful workmanship. When the mester asme home, instead of being delighted at the success of his pupil, he was overcome with struck the unfortunate boy on the head, kills ing him on the spot. He paid the penalty of his mah and cruck act. The tragedy is come memorated by two carved heads; one, as the very apex of the root in the west corner, had a scar on the right temple, and the other is said to represent the head of the serrowfe inother of the apprentice. Both heads wers carved by the lad's fellow - workmen. The column is surrounded by an exquisitely wrought wreath of flowers, running from bass to capital, the very poetry of carving.

#### BARBADOS.

Pear-shaped, solitary, furthest east of the West Indies, Barbados generally is accounted the most healthful of the group, even though it is the most populous country in the works, to the square mile, except Chins, says an Amarican paper. ...

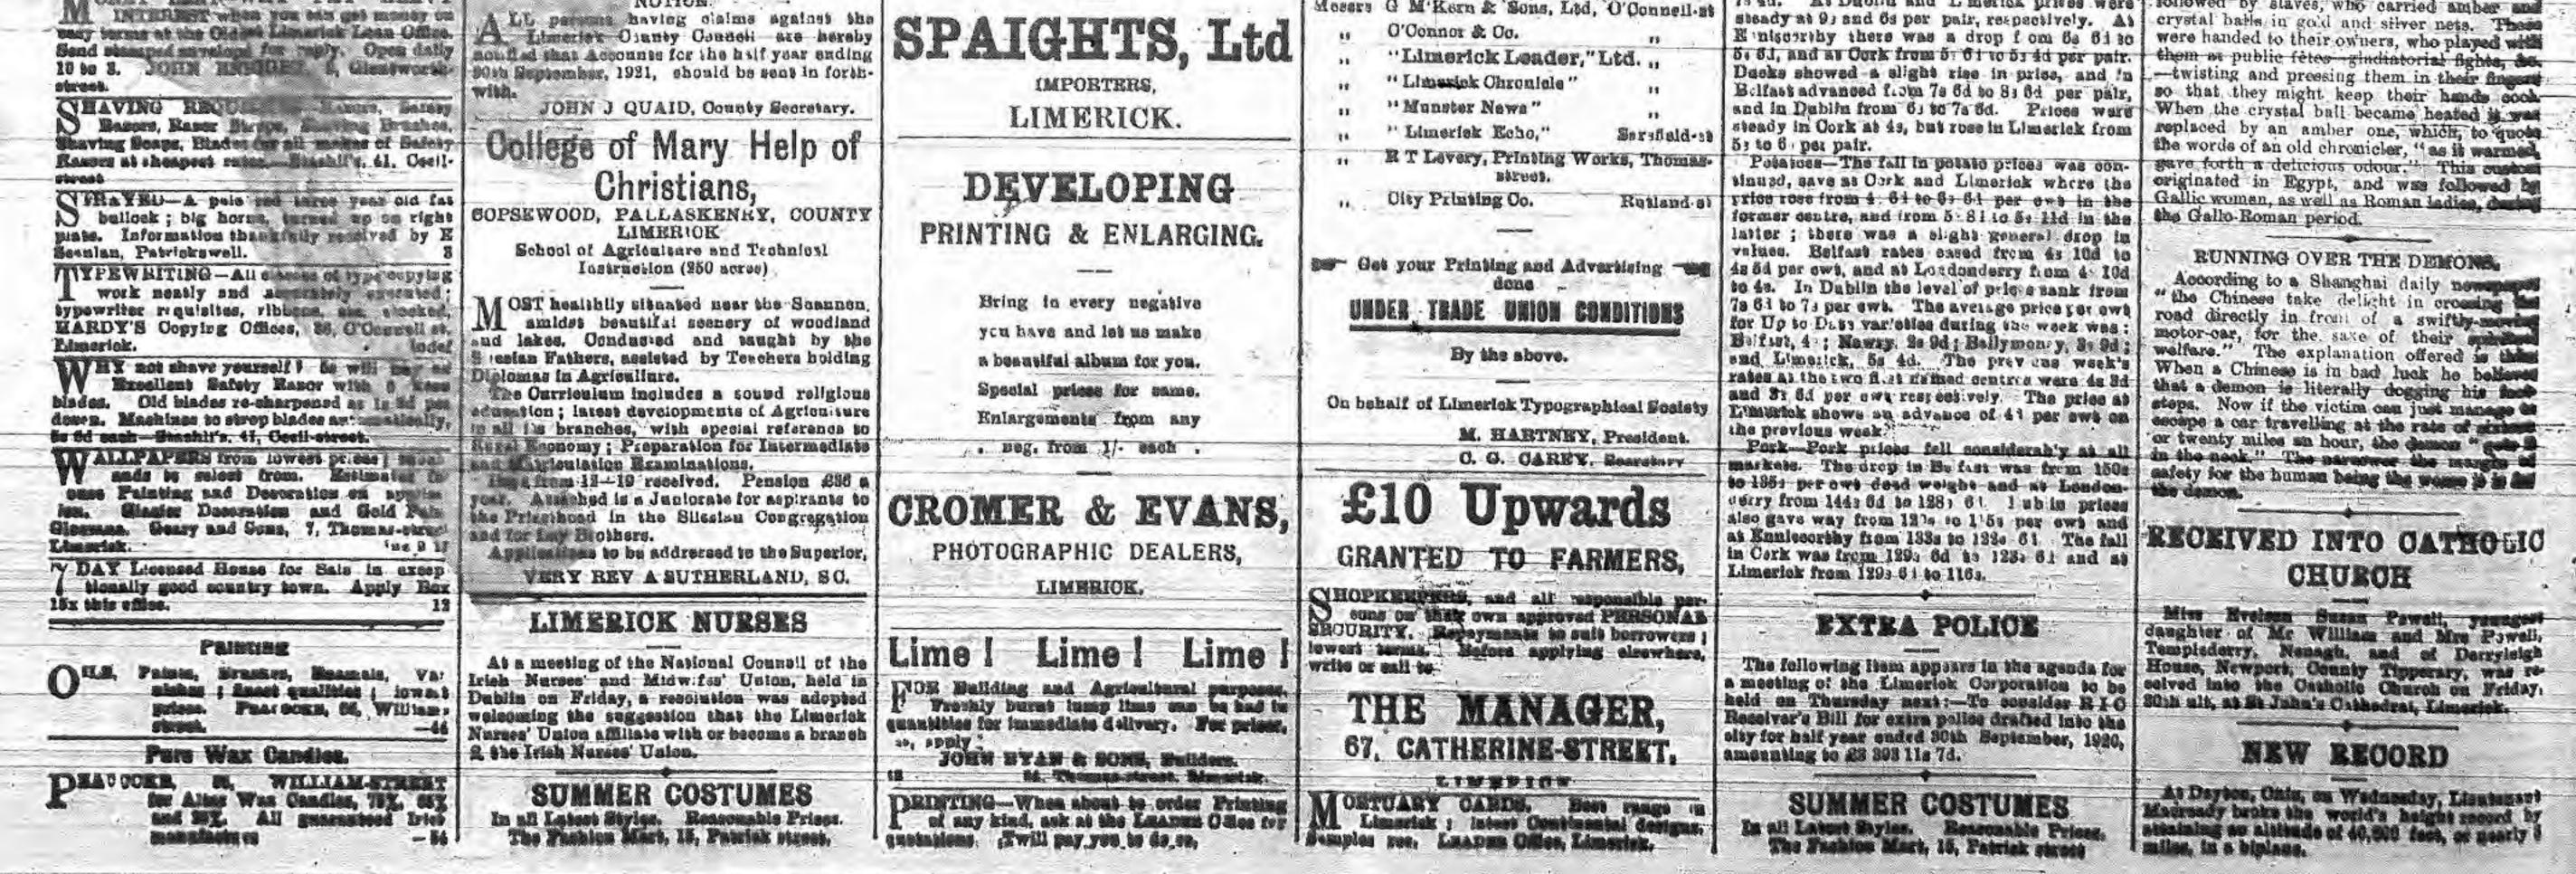

The island is but an eighth the size of Rhode Island, but has twice as many inhabitants to the square mile as the smallest and most densely populated State in the United States.

Seldom does a volcano become an asset, bas volcanic aruptions have contributed largely to the fortility of Barbados. When the sun was obscured throughout one day in May, 1922 the Barbadians were panic stricken; bet when the gentle rain of black dust subsided, the deposit was found to be ashes from an eruption of St. Vincent Soufriere, nearly 100

miles to the west, which enriched the soil. Long before that time, though, Barbadon was productive. Oldest. of British colonial possessions except Newfoundland, it also was the first place in the British Empire where sugar cane was planted. Its average crop of this now high-priced commodity is 50,000 tons. It also has 2,000 Geres planted in See Island with long staple - tion ; raises 40,000 bunches yearly of the Chinuse banana, and exports molasses. There are no vale bee at Barbados; nor are there any streams of any preciable size:

The Ray Chairman, in outlining the object of the meeting, said it was called for the purpose of taking steps to build a new school is Theselroulation of spurious notes in France | Kilmallock. The present souool, as they were ali aware, was outirely inadequate for the meeds of the shildren. They had nearly twice the number of children in the parish that they were able to find scommodation for. They were neat into a school which was entirely inadequate, and as a result the teaching was very imperfect. It was impossible for a teacher to toach in a school that was overcrowded. The children were actually on evident to everybody that there was a

considerable need for a school. There were a number of shildren outside who were not going to school, and if an effort was made to bring shem all in, it might be possible to do so, but shere was no need as all for shem. If shey had proper school accommodation a cerious effort might be made to bring in shose who were not coming as present. There was really on'y room for half the number of children in the parish, but if they had a new school one section sould cooppy she room they were in. They all knew the importance of education at the present time ; they could

# The Cabinet Meeting

The Press Association Special Correspondent wiring on Friday night, says : - The Cabinst, which reached the decision, momentous in the history of the peace negotiations, mut at the Mansion House at 3 o'clock. The azient of the public fuseress was demonstrated by the fact that throughout the morning groupe of people assembiad outside the meeting place hopefal

pig markets, and sizes their last meeting of an early decision. Mr de Valera did not reach the Manalon House antil threa o'cicck. The Oabinet had before is various other matters, and the fact that the meeting not apprave of fortnightly pig markets, and as broke up soon after five, indicated that the formulation of the reply did not call for very lengthy consideration. It was the first business on the egenda, so the draft of the reply was confirmed in rather lass than an hour. I understand that the Cabinet was united in its decision, and shat the only point which called for any particular discussion was whether or not the response should include ratification in ons form or another of the Sinn Fein point of view in approaching the Conference. Mr de Valera lafa abe Mansion House a few minutes before seven, and shortly after was followed by Mr Aribar Oriffin. Press at seven o'clock. This, it is understood, was one clear hour after is had been despatched difficult to exag ate the gratification with received in the plash, and that it is even

Barton, T D) called a Conference at the Mansion House of representatives of the Great Southern and Western Rallway and the trades. men concerned in the dispute which led to the stoppage of traffic. The Conference met at the Mansion House at 4 p m to day.

The Minister addressed the Conference, and na ta begages amit at the time engaged at an important Oabines meeting. He had, therefore, asked the Lord Mayor of Dubila to preside in his place, and he had kindly concented to do so. Mr Barton impressed apon the members of the Conference the necessity for arriving at a soblisment which would result in a resumption of traffic at the earliest possible moment.

After a full discussion of the matters in disputs the following agreement was arrived at and signed by all the parties concerned ;---

"The Graat Southern and Western Ballway Company are prepared to accept the decision of Lord Justice O'Connor in his recent arbitra-Mon, aubjocs to the following conditions :- (1) In the case of the coalmen the reduction shall be put into force from the date fixed in Clause. 1 of the arbitration award referred to ; (S) anbject by ratification by the men concerned is is sgreed that all shopmen shall resume daty ; all notices issued shall be wishdrawn, and work shall be resumed by all grades as the sarlest possible memeas.

The terms of agreement were submitted to a mass meeting of the mon's unions for ratifica. sion on Friday.

The Publicity Department of Dall Eirsann further announce that Mr Foran addressed a meesing of ell ans shopmen employed on the Q S and W Railway at Dublin. The terms of she agreement drawn up were unanimously ratified, with the result that errangements had been made for the immediate resumption of WORK.

According to the eartorial authority of the Tailor and Outter," the only people who appear to be busy in the tailoring world are those who turn suite, or, falling that drastic breatment, renovate them to make them look like new. As indicating the plass of asstomers who patronise the repairing saffor in shose bister simes, where suits are worn to the bitter end, it is stated that one has in his workrooms garments to be inrued or renovated belonging to doctors, solicitors, and other professional men, while a firm specialising in the cartorial resurrection balaness has on his books as oussomers the names of dukes, lords, and generals, The overcost season is upon us, and thoughts, even as in pre.war days, go ons so scheming methods of keeping the old suis alive until the spring fashion-plates mest our eys. Whether the repairing tailor is reaping more than his after holiday harvash is questioned, but there is no doubt that the demand for new clothing is small, in spite of the immense reductions shas have been made in prices.
