The Master reported that he had disposed of seven fas pigs by tender, as £36 10s, so Mr F O'Donovan.

Mr M O'Flynn--You got a good price. Master-I would not consider I did. Last year I gos \$130 for seven pigs not so good.

Mr P O'Flynn referred to the decision of the lass Board mosting to reduce the expenses of the members on the Board of Managemous of the Glin School. He pointed out that it was impossible for the membars to attend at Glip on pre war expanses.

The Ohairman said that the Board had desided to allow 22s 6J par member, and no more Mr O'Flynn-It will open a member \$1 for s test in a motor,

Mr Gabbins-Working members should be allowed their expenses, because they will lose their day's pay.

Mr O'Flyns said that he would not continue to act as a member of the Board of Mansge mont any longer, as members could not be expected to travel to Glin at a loss,

Mr M J Hassett, secretary to the County Limerick Governing Body, wrote stating that he was directed to notify the Guardians that all healshy man, women and children belonging to the areas, Limerick No 1 and Tipperary No 2, would not be received in the County Home and Hospital, and therefore should be dis charged from the workhouse.

Master-This is a very serious matter. The position for me is rather difficult.

Ohairman-Are we to throw these people on she roadside ?

Master-Sura is is monstrous. Mr P O'Fiynn said that he knew from the beginning of the amaigamation movement that the Limerick Guardians .would .be asked to throw the poor people on the roadside. The Guardians of the Dublin Union had decided to ask Dail Elesson to appoint Commissioners to administer the Union with power of veto. Before the Limerick Guardians should take any action on the letter from the Jounty Governing Body, is would, in his opinion, be wise that Dall Eireann be asked to send down two Com-

missionars to deal with such matters arising out of the question of amaigamation and how were shey (the Guardians) to throw poor people on the roadalde.

Mr Oashin-It was suggested by the Advi sery Obmmittee that An Dall send down Oomminsioners to deal with the matter and they should have dens so.

that there are no poor people.

Chairman-Is would be a disgrace to throw the people on the roadside.

Some interesting papirs were read at a most. ng of the Hiplingraphical Society of Ireland, had in the Koys: Irish Academy House, Daw am abreat, Dablin Dr Klekysterick (Prealdent) presiding. They included " Aria di Osmera," by Mr W H Grossan Finod. This, 15 was spaced. was the oldest sollestion of Icith masio, and

was printed in London by Daniel Wright. It nontained 74 papes. 16 of text and 48 of angraved music. The Ician airs wate supplied by Mr Dermos O'Connor of Linestok, Of 75 tanes in this volume, 30 were Irish ; and of shees 30 the great O'Carolao composed 16. Gradually Winning Markets Some interesting figures are forthcoming wish respect to the inroads which the Germans are sgaln making on the Spinish market. During the first seven months of the year, 50 per cent of the machine tools entering Spain were of Garman origin, as also 20 per cent of the machinery for fluer and paper mills ; the balk of the railway material ; 13 tone of typewritters against 11 tons received from Great Brithin, 2 000 tons (approximately) of electrical

equipment out of a total of 4 900 tons; and over 50 per cent of the telegraph and telephone apparains imported ; over 20 per cent of the agricultural machines-far alsoad of any other Raropean country -bus taking second place, in this particular instance, to the United Sintes. Effin Branch

A meeting of the above branch was held on lass Sunday in the mill. Mr Carroll presided. The meeting was not large, but the most representative formers in the district wore present.

The Unalrman, in opening the meeting, cald that the farmers of Ireland wers behind every elses in the matter of organisation. This should not be if the farmers were to hold their own in the futuro-organization was as neves sary to the farmer as any other body in the

community. He was as a loss to know why they were not organized theroughly. It was not, he thought, the organiser's fall. Even that day, when the organiser was present, she meeting was not as large as should be. The farmers will come to gether when they are impoverished, when it is soo late, when their industry is on the brink of ruin when shey will be worse off shan shey were 20 years ago. Their condition bu-day was aciaally on a par if not worse than it was 25 or 30 years ago. It is well known shas when she armer is poor the country is poor in the same proportion. He would not detain them as Ma Walshe was present and he would point out to

them the necessity of organisation. Mr Walshe dweis especially on the peeds of organisation now and in the future. He was very pleased to say that this was one of the bess Branches in Oa Limerick and he hoped is would take its place again in the immediate lainra.

Mr J O'Riordon mensioned aspecially she case of the unpurchased tanants. He stated before Land Purobase the landlord was liable for the payment of one-half the raises; now when the rates were opecially high the farmer had so pay all. If shis state of things went on

Mr M'Oabe shoughs the city pacple would be very glad to have a depose of this kind worked by do-operation.

A further meeting of which due notice will be given will be held in the immediate future.

The Patrickswell Branch

A meeting of the Patrickswell branch of the L'inerick Farmers' Union was held as Pasricks well National School on Sunday last, 30,h alt. Mr Edmond Scanlan presided.
